ABOUT ME

Hey there! I'm Akshay M R, currently immersed in a MERN stack developer internship, where I'm refining my skills in web development. With a Bachelor's Degree in Computer Application, I've built a strong foundation in programming and software development. I'm passionate about leveraging technology to solve real-world problems and am excited about the possibilities in web development. I'm committed to continuous improvement and am eager to contribute my skills to impactful projects.

WORK EXPERIENCE

Softronics, Palakkad

Currently interning as a MERN Stack Developer, I'm gaining hands-on experience in building full-stack web applications. This internship offers valuable opportunities for skill development and practical application in web development.

WORKS

E-COMMERCE WEBSITE

- Developed and implemented a fully functional e-commerce website using HTML, CSS, JavaScript, and React.js.
- Utilized React hooks and state management techniques to dynamically update product listings based on user input.
- Designed and integrated a filter search feature to enhance user experience and streamline product navigation.
- Leveraged HTML and CSS for structuring and styling the website's layout and components.
- Implemented JavaScript to enhance interactivity and functionality, including dynamic product filtering.

MOVIE WEBSITE

- Created a Movie App using React Js
- Used TMDB API and utilized Axios for seamless data retrieval
- Crafted a dynamic platform showcasing movie Genres.
- Utilized react-youtube package - trailers fetched directly from Youtube

PROJECT

- HOSPITAL MANAGEMENT AND REGISTRATION SYSTEM
